he agreed with the Archbishop of Canterbury that there can be no strong theological objection to women ful-filling roles in the ministry. The question is — what roles?

Clearly, the place of Scripture should be pre-eminent on this question. Men and women should be prepared to yield to the authoritative word of God. In some circumstances this will mean men must recognise more than they presently do that women can, and should, play a greater role in the corporate life in the Church. Women, anxious for recognition or that popular aspiration, "fulfilment", may have to recognise that God's plan for people in the Church does take their sex into account.

There needs to be a careful and charitable examination of what the Bible means by ministry. Too many think of women's ordination in terms of a sacramental function instead of an oversight of a congregation with a much wider range of activities in view. To what extent this is desirable or permissible is the real issue.

A few weeks ago "Time" magazine carried a cover story headlined: "How True Is The Bible?"

After discussing the close study and sometimes hostile attack to which the Bible has been subjected in our lifetime, "Time" summed up its conclusion in the sub-title: "The Believers Gain!" He performed miracles, healed the sick, raised the dead, forgave sins, accepted worship, and claimed equality with God!

Accepting Jesus as my Divine Lord, I am bound to believe the Bible is true because of what Jesus Christ said!

I also believe it because of what I have experienced!

Its truth has been proved in my own life!

Mr Boone defines a miracle as "the touch of God in your life" and describes 31 incidents of a wide-ranging nature, from stories of conversion to rescuing a fly from his "Beverly Hills swimming pool". The author is convinced that our doctrinal judgments are cutting us off from God's rich provision, and his answer lies in the doctrine of the baptism of the Holy Spirit; but much of what he says, is marked by a lack of doctrinal This self portrait is couched in the same clear straightforward Anglo-Saxon literary style that is familiar to all who read Ryle's books. Its special value lies in the account of his boyhood home and the crash of his father's bank; of his days at Eton and Oxford; and of his conversion not long before Eton and Oxford; and of his conversion not long before he took his degree and the strong Evangelical con-victions which underlay his faith and ministry. There are paragraphs in which it tends to be repeti-tive and in which one might think there was a stronger element of self-pity than seems consistent with his strong masculine character. warked by a lack of doctrinal judgment. That is the question everybody in Australia is asking. The revelations on overseas loans which led to the sacking of Dr Cairns casts doubt on the credibility of the government as a whole. Nobody is satisfied with the Prime Minister's actions against his deputy. If no new damaging revelations come to light it is just possible that in two or three months the whole thing will blow over and it is possible that Mr Whitlam could running hut not likely.

survive, but not likely. Mr Frazer is not committing himself now on what he might want to do in four months time and from his point

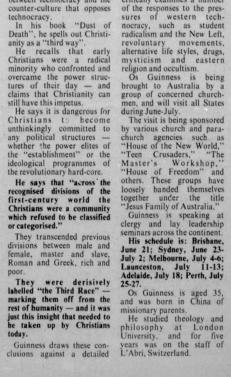

of view that is wise. Yet the question of how long the Government can survive is still open for other reasons. Whether the senate rejects supply or not, the necessary pre-conditions for a double-dissolution have been satisfied already. There is no reason to doubt that the senate will continue to frustrate Government legislation. Can Mr Whitlam put up with that for another two years? Is it fair for

Australia to be denied stable Government by the constant threat of an election, be it made or implied' With the death of Senator Milliner and the resignation With the death of Senator Milliner and the resignation of Senator Murphy, both places having to be filled at the next mid-term election, there is no chance of Labor gaining control of the Senate even if the mood of the nation was favourable towards Labor — which it isn't.

On top of this siege situation Mr Whitlam faces the serious problems of internal struggle caused by his ruthless axing of Dr Cairns and the demotion of Mr Cameron, and his poor performances in recent elections. This has led some to think the Government might disin-tegrate from within. Given the strong sense of survival among politicians this is unlikely.

All these possibilities lie in the future, meanwhile the Australian people are left with a lame duck Prime Minister, and a Government whose integrity is in serious doubt

The project will be jointly shared by Newcastle and Sydney Anglican Dioceses.

**Germaine Greer film** criticised by Festival "The announcement that \$100,000 has been given to Germaine

Greer by the Australian Government is, to say the least, staggering," said Mrs Monica Gallagher, an Advisory Committee Member of the Festival of Light.

The Rev Fred Nile (FOL Director) said: "The International Women's Year Com-mittee and Federal Government should be given the prize for the sick joke of the year and admit the whole Greer erant story is a heavy

The pre-occupation of the media and people with the almost daily string of crises parallels that of the Watergate scandals. Mr Whitlam on one occasion made a jibe at Mr Nixon that Watergate had left him in a parlous position as president. Now he knows for himself what it is like.

what it is like. The calling together of Parliament this week is not-likely to solve the long term problems either. Because of the serious doubts about the Government and the over-riding need for stable government to deal with the economic difficulties facing Australia, Mr Whitlam should take the initiative himself and call an charten to how the averties resolution area and area and the source the source of the source of the source of the source the source of th election to have the question resolved once and for all. Of course the Prime Minister would not relish this as it

would mean almost certain defeat but it is time tor him to act for the wider good of Australia rather than the narrow interests of himself and his party. It is time the people spoke again, only by an election could the stale-mate be broken.
